

TESTIMONIALS

"Its broad range of editorial content - whether opinion-based, or more of a hands-on, practical nature - makes Hydraulics & Pneumatics a must-read journal for anyone involved in fluid power."

- **Bob Buchanan, Argo-Hytos.**

"Hydraulics & Pneumatics is the only niche publication for the fluid power sector, and its editorial content mirrors our industry very well."

- **Martin Holloway, Stauff UK.**

"Hydraulics & Pneumatics' content accurately reflects the broad scope of solutions and applications within our industry."

- **John Forman, Atlas Copco.**

"For OEMs, distributors and end users alike, Hydraulics & Pneumatics is an important journal for the fluid power industry."

- **Barry King, Eaton Hydraulics.**

"Hydraulics & Pneumatics is always at the forefront of technological innovation and topical debate within the highly diverse world of fluid power. It is essential industry reading."

- **Adrian Cooper, Webtec Products.**

"For keeping up with current trends and opinions concerning the world of fluid power, Hydraulics & Pneumatics magazine is the ideal first port of call."

- **John Adair, Bonfiglioli.**

"In order for companies to keep up to date with all aspects of our industry, Hydraulics & Pneumatics is an invaluable publication."

- **Stephen Merrie, Primary Fluid Power.**

"Since its inception, Hydraulics & Pneumatics has become the 'voice' of the fluid power industry in the UK."

- **Grahame Bell, Uniflex.**

"Hydraulics & Pneumatics is unique in UK publishing in that it is a journal wholly focused on fluid power equipment and systems. It is therefore a 'must read' for anyone who works in, or is associated with, this fascinating sector."

- **John Chapman, Linde Hydraulics.**

"Hydraulics & Pneumatics, complemented by its recently launched website, provides our industry with a handy one-stop source of news, opinion and debate."

- **Ian Cheeseman, Pneumax.**

"Since the mid '90s, Hydraulics & Pneumatics has carved its own unique niche in the UK as the fluid power industry's very own, dedicated publication."

- **Colin Mander, CompAir.**
